LYCOS B. BLANZA

SOFTWARE ENGINEER & DEVELOPER

blanzalycos@gmail.com • Lipa City, Batangas • 0995 678 3687
Portfolio: blanza-lycos-portfolio.vercel.app • GitHub: https://github.com/lycos-dev

PROFILE

I'm a 4th BS Computer Science student with hands-on experience developing web and mobile applications and coordinating a four-person AI/IoT thesis team. Skilled in React, TypeScript, JavaScript, Python, and Java, with exposure to API integration, databases, testing, and technical documentation. Available for a full-time software development or related IT internship.

PROJECT & INNOVATION EXPERIENCE

SafeSeat | Project Manager · Undergraduate Thesis

ESP32 · C++ · Python · IoT Sensors · Computer Vision

- Managed a four-person team building an add-on passenger safety system for five-seater vehicles using mmWave, pressure, temperature, and motion sensors with event-based computer vision.
- Planned milestones, resolved integration issues, and coordinated testing of anomaly detection, posture verification, and mobile notification workflows.
- Led technical reviews and documentation to support debugging, demonstrations, and privacy-conscious camera activation.

DocVia | Web Application Developer

React · TypeScript · Vite

- Built a PDF-based learning platform with structured lessons, learning paths, and a navigable study interface.
- Implemented contextual AI tutor interactions and quiz workflows for review and active recall.

NEXA | Mobile Application Developer

React Native · Expo · TypeScript · AsyncStorage

- Developed a fitness tracker for planning routines, logging workouts, and reviewing training history.
- Created reusable mobile screens and retained user data between sessions with AsyncStorage.

CaLaBaRZon Young Innovators' Challenge

Creativity Track Participant · April 2026

- Collaborated on a design-thinking pitch proposing a practical solution to a barangay or community-level concern.

SEMINARS & WORKSHOPS

Bridging Ethical Hacking and Data Analytics • Jan 2026
Attended a CITE visiting expert seminar examining security and data analytics for safer systems.

Innovative Research Horizons 2026 • Feb 2026
Participated in a research-focused seminar organized by DLSL student engineering and computing groups.

Project Deep Dive: Animo.Dev, Session 2 • Mar 2026
Explored the development of Reaction Ring, including hardware, programming, and its behind-the-scenes process.

Hello World to the Real World • Apr 2026
Attended a tech-industry survival guide seminar with software engineering career perspectives.

Career Launchpad & The Grit Factor • Aug 2026
Joined Career 104 and SEEDS 104 sessions on campus-to-career preparation and resilience.

JPCS Masterclass 101 • May 2025
Participated in a masterclass hosted by the Junior Philippine Computer Society at DLSL.

TECHNICAL SKILLS

PROGRAMMING
JavaScript, TypeScript, Python, Java, C++

FRONTEND & MOBILE
React, React Native, Expo, Vite, HTML/CSS

BACKEND & DATA
Node.js, Express, PostgreSQL, MySQL, Prisma, Supabase, REST APIs

INTELLIGENT SYSTEMS
ESP32, IoT, Computer Vision, Machine Learning

DEVELOPMENT TOOLS
Git, VS Code, Linux / CLI

CURRENTLY LEARNING
Automated Testing (Jest or Pytest), Docker & CI/CD, Cloud Fundamentals, DevOps

EDUCATION & RECOGNITION

2023–2027 (Expected)
De La Salle Lipa
Bachelor of Science in Computer Science

Second Honor Awardee
First Semester, AY 2025–2026 · GPA 3.6389

2021–2023
LCC Silvercrest School
Senior High School

2018–2021
Bolbok Integrated National High School
Junior High School

CERTIFICATIONS & COURSEWORK

DataCamp

PROGRAMMING
Introduction & Intermediate Python; Introduction & Intermediate R

DATA & STATISTICS
Data Manipulation with Pandas; Introduction to the Tidyverse; Statistical Fundamentals; Exploratory Analysis Theory; Statistical Experimentation

DEEP LEARNING
Deep Learning for Text with PyTorch

LANGUAGES & STRENGTHS

LANGUAGES
Filipino (Native) | English (Intermediate)

KEY STRENGTHS
Problem-Solving; Project Coordination; Team Collaboration; Technical Documentation; Troubleshooting; Adaptability; Agile & Scrum; System Design & Integration
