LYCOS B. BLANZA

4th Year Computer Science Undergraduate

Lipa City, Batangas | 0995 678 3687

Email: blanzalycos@gmail.com **Portfolio:** my-personal-portfolio-two-lemon.vercel.app

PROFESSIONAL SUMMARY

BS Computer Science student with practical experience building web and mobile applications and coordinating a multidisciplinary AI/IoT thesis. Comfortable working with React, TypeScript, JavaScript, Python, and Java, with exposure to APIs, databases, system integration, and testing. Available for a full-time internship in software development or related technical roles.

TECHNICAL SKILLS

Programming: JavaScript, TypeScript, Python, Java, C++

Web & Mobile: React, React Native, Expo, Vite, HTML/CSS; Node.js, Express

Backend & Data: PostgreSQL, MySQL, Prisma, Supabase; REST APIs

Intelligent Systems & Tools: ESP32, IoT, Computer Vision, Machine Learning; Git, VS Code, Linux/CLI

PROJECT EXPERIENCE

SafeSeat | Project Manager | Undergraduate Thesis

ESP32 · C++ · Python · IoT Sensors · Computer Vision

- Managed a four-person team developing an add-on passenger safety system for five-seater vehicles, combining mmWave, pressure, temperature, and motion sensors with event-based computer vision.
- Planned milestones, tracked integration issues, and coordinated testing across sensor inputs, anomaly detection, camera-based posture verification, and mobile notification workflows.
- Organized system reviews and technical documentation to support debugging, demonstration readiness, and privacy-conscious camera activation.

DocVia | Web Application Developer

React · TypeScript · Vite

- Built a web application that organizes uploaded PDF materials into structured lessons, learning pathways, and a navigable study interface.
- Developed contextual AI tutor interactions and quiz workflows to support comprehension, review, and active recall.

NEXA | Mobile Application Developer

React Native · Expo · TypeScript · AsyncStorage

- Built a mobile fitness tracker for planning workout routines, logging exercise sessions, and reviewing training history.
- Created reusable screens and used AsyncStorage to retain routine and workout records between sessions.

EDUCATION & RECOGNITION

• De La Salle Lipa — Bachelor of Science in Computer Science | 2023–2027 (Expected)

Second Honor Awardee — First Semester, AY 2025–2026 | GPA: 3.6389

• LCC Silvercrest School — Senior High School (2021–2023)

• Bolbok Integrated National High School — Junior High School (2018–2021)

INNOVATION & ACADEMIC PARTICIPATION

CaLaBaRZon Young Innovators' Challenge — Creativity Track (April 2026): Collaborated on a design-thinking pitch proposing a practical solution for a community-level concern.

CERTIFICATIONS & COURSEWORK

DataCamp: Deep Learning for Text with PyTorch; Data Manipulation with Pandas; Introduction/Intermediate Python and R; Tidyverse; Statistical Fundamentals; Exploratory Analysis Theory; Statistical Experimentation.

SEMINARS & WORKSHOPS

2026: Bridging Ethical Hacking and Data Analytics (Jan); Innovative Research Horizons (Feb); Project Deep Dive: Behind the Scenes at Animo.Dev — Session 2 (Mar); Hello World to the Real World: Tech Industry Survival Guide (Apr); Career Launchpad & The Grit Factor (Aug).

2025: JPCS Masterclass 101 (May).
